function

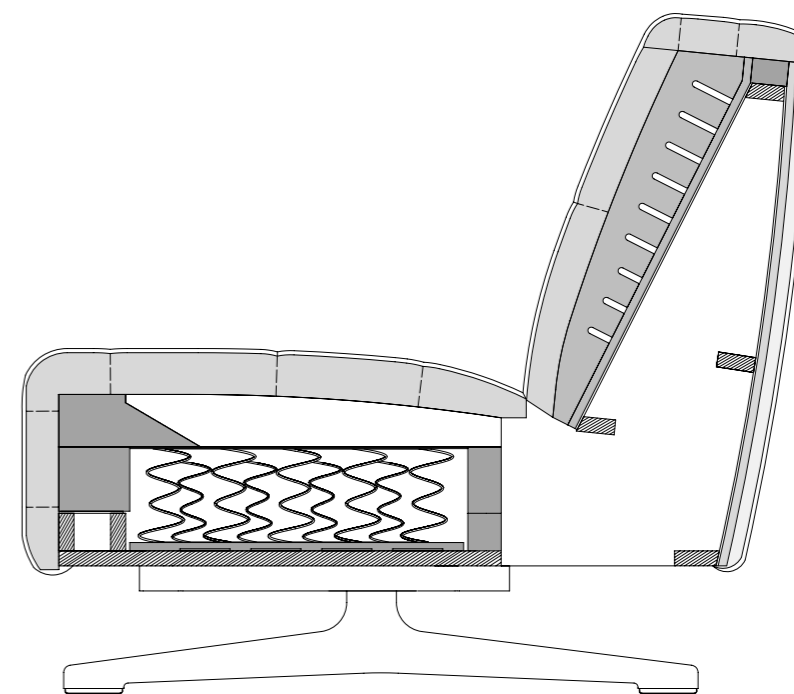

**THE INNOVATION OF  
RELAXATION. //**

Lean back and luxuriate in the feeling of perfect relaxation. The optional innovative back mechanism allows smooth adjustment from sitting to reclining. Thanks to a special technology based on a new type of gas spring, you can move the back rest

manually to the perfect position with merely the slightest of effort. The back section can extend by up to 12 cm, offering an even larger area of comfort. The optional functional cushion is available in two heights, providing the perfect complement to

the back function. It boasts especially comfortable padding and features a steplessly adjustable mechanism that converts the cushion into a highly functional headrest.

innovative, superlative  
seating comfort

**THE INNOVATION OF  
COMFORT. //**

Rolf Benz 50 has an especially comfortable seat structure based on traditional, craftsman-made upholstery techniques that have been developed even further. The high-quality strap spring unit with superimposed interactive pocket spring

core and high-quality cold foam layer is also covered with a chambered rod fibre mat. This construction produces comfort that is superbly soft and yet still supportive at all times. The back cushioning is tailored precisely to the seat thanks to care-

fully-positioned clefts in the foam, offering a beautifully harmonised, overall seating comfort.

## THE ALLURE OF THE INDIVIDUAL. //

The finish of the cover on the Rolf Benz 50 armchair, like the sofa, features the novel pleated quilting seam and elaborate flat fell seam. The armchair, which also bears the design's floatinglike elegance, can be combined with a matching footstool and is alternatively available with a high back rest. The surfaces of the star foot are coordinated with the sofa.

**THE MOST NATURAL FORM  
OF REFINEMENT. //**

We process a very special, high-quality leather for Rolf Benz 50 (article 40.200-40.206). Tanned using traditional craftsman techniques, it displays the hide's natural characteristics: a sign of the very finest quality. Exceptional softness and a pleasant handle are the hallmarks of this un-embossed, full-grain leather. The leather is given a light finish that increases its comfort and wear properties. The leather's natural structure is preserved, giving it an unusual and vibrant look. The material's agreeable

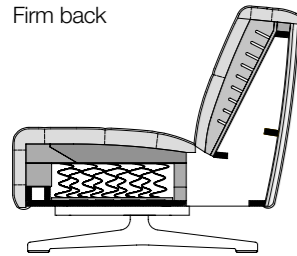

softness is produced by a particularly gentle finish and extra-long fulling times. At the German HELLER-LEDER tannery - a company that works in accordance with the highest standards worldwide. HELLER-LEDER has been recognised for its work with the internationally coveted "Tannery of the Year" prize, marking it as the world's best tannery in 2011, and received the GOLD rating from the International Leather Working Group LWG in 2013. The company produces exceptionally fine and special leathers

using state-of-the-art methods. At HELLER-LEDER, the products are sustainable and radiant with natural beauty. They are manufactured in the world's first tannery to hold the "Blauer Engel" eco-certificate for its entire upholstery leather production chain. Each Rolf Benz 50 consequently becomes a unique creation that will give you years of endless joy. And with a clear conscience.
